Vinification and ageing	<p>The previously selected grapes are carried exclusively in 20 kg boxes and submitted to a thermal shock in a cold storage chamber before being destemmed. The vinification is then done in the winery using the most advanced technology. Each variety is fermented separately at a controlled temperature.</p> <p>After fermentation, 30 % of the wine undergoes a 4 months period in oak barrels. The wine is then bottled without any filtering so as to maintain the quality of the final product.</p>
